Environmental Policy

MDF Group is a provider of building services upgrades, repairs and maintenance of commercial/industrial buildings.

MDF Group aims to achieve an appropriate standard of care for the natural environment in all of the activities in which we are engaged, consistent with technical and economic feasibility. Accordingly MDF Group has developed an Integrated Management System that complies with and be maintained in accordance with the requirements of AS/NZS ISO 14001.

It is the policy of the MDF Group that operations in the company are carried out in compliance with the relevant statutory and regulatory obligations, community environmental standards and specific project requirements. At all times MDF Group shall operate with a minimum of impact on the environment and is committed to the prevention of pollution.

This policy is a direct concern of all managers who are in turn accountable to the Managing Director. All employees have a major role to play in protecting the quality of our environment and Management will communicate regularly with all employees concerning company aims and individual responsibilities.

The MDF Group is committed to encouraging and supporting personnel who are responsible for the monitoring and adjustment of environmental controls in accordance with the environmental procedures set out by the company.

MDF Group will identify, monitor and manage risks arising from our work activities, seek ongoing improvements in construction methods, foster environmental awareness, continually review our environmental performance against our targets, and communicate with the community and government about potential environmental impacts from our activities.

MDF Group seeks the combined efforts of all employees and sub-contractors to ensure the effectiveness of our Environmental Policy.
