Quality Policy

MDF Group is a provider of building services upgrades, repairs and maintenance of commercial/industrial buildings.

MDF Group shall strive to achieve excellence in providing project management and construction expertise to satisfy customers' specialist needs.

To achieve this aim MDF Group has adopted an integrated Management System that appropriate for its activities and that has been developed based upon the requirements of the standard AS/NZS ISO 9001.

Incorporating this International Standard within the framework of MDF Group entails commitment to the delivery of service and projects in a manner that is on time, within budget, cost effective and that satisfies customer requirements at all stages of work.

MDF Management has the overall responsibility for the communication within the MDF Group and the control of the quality system and of this Policy. MDF Management is committed to allocating sufficient resources to ensure training is adequate to meet our objectives. Quality standards shall not be compromised.

MDF Management shall foster an environment for all employees to actively participate in the implementation and review of the quality objectives and is committed to continuous improvement of its processes and systems.
